8. The Energy Performance of Buildings Regulations 2007

A valid Energy Performance Certificate relating to this property has been made available to the Tenant prior to the signing of this Tenancy Agreement in accordance with the requirements of the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Order 2007.

9. Section 45 Flood & Water Management Act 2010

The above Act places a legal obligation on the Landlord or the Landlord's Agent to provide the water authority when requested with a forwarding address for the Tenant following the end of the Tenancy (see clause 1.54 (ix) and (x))

10. Legionnaires Disease

In accordance with the Code of Practice issued by The Health and Safety Executive regarding the control of legionella bacteria in water systems, the Landlord confirms that he believes the property is safe and free from any such bacteria at the commencement of the Tenancy. See Clause 1.34(ii) in relation to Tenant obligations in this regulation.

11. The Landlord is obliged to make the Tenant aware that as with any residential property, if water is allowed to stagnate within the hot or cold water systems (ie loft cold water tank, shower units, water filters or similar etc), there is a risk of Legionella. To reduce this risk, the Tenant is responsible for taking some simple control measures including regularly cleaning and disinfecting any shower head/s in the property and where the property has been vacant for more than a week, outlets from any hot or cold water supply should be 'turned on and allowed to flow' to minimise the stagnation. The Tenant must also report if the hot water is not heating properly or if there are any other problems with the water system, so that a repair can be actioned. As with any residential property, an occupant must only drink water from a mains fed cold water tap ie to only drink from the kitchen tap and not from bathroom taps.
